Infrastructure Development

****Cleaning of "Tamarakolam – The Lotus Pond" at Aylur Village ****

Puthucode district of Palakkad, Kerala

This involved 3 stages of planning: -

Stage 1 - Weeds in the pond, measuring 4.5 acres, were removed & transported to a nearby safe place, to ensure that the weeds don't find their way back into the pond. In this work, maximum number of locals & Trust members participated.

R.K FOUNDATION

Helping Honest Hopes

Stage 2 - Collapsed retaining walls, measuring 120 mtrs & 50 mtrs were to be reconstructed. Before local people & trust members embarked on this step, lots of thick vegetation that had grown had to be removed for which machinery was used. Once the vegetation was removed, the fallen stones were taken out & a fresh foundation, measuring approx. 8ft was laid. Random rubble method was used so that unnecessary cement & sand was saved.
